

PERSONAL STATEMENT

Hi, my name is Kaido and I am a Multimedia Designer specializing in web design, graphical design and video editing. I am 22 years old and I pride myself on being calm and rational when under heavy stress. This skill translates into my design work by being able to not rush out on a job. I am experienced and keep up to date with the current trends which I try to merge with my style. I love design, video games, music, technology and history. I am looking for a highly creative, fun, collaborative atmosphere where I am encouraged to grow and create.

EXPERIENCE

Multimedia Designer at Identity OÜ, Tallinn (2016)

During my internship here I had to make a promobug, an animation video and using Photoshop to edit the colors of a series of buildings.

Multimedia Designer at Evestus OÜ, Kuressaare (2015)

In here I had jobs with varying difficulty, like: assisted in making a storyboard for a music video, used a 3D printer and made a camera tripod, made a website that would display pictures and videos on a touchscreen monitor, updated my portfolio site, edited a Europass video and finally I designed a catering feature to an existing website.

Graphic Designer at Go4Less, Dublin (2012)

Here I was selected to have an internship in Ireland for a month. In here I was working for a traveling company and I had to make flyers, posters, rollup banners, web banners, web design and brochure design. Mostly I used Photoshop here, since I hadn't used any other software back then.

Internship at Kuressaare Regional Training Centre, Kuressaare (2011)

During my internship my main jobs were to: Update software on school computers, making ethernet cables, fixing a router, checking ethernet ports, setting up computers, scanning schools history pictures and many different small type jobs.

EDUCATION

Multimedia Designer course in Kuressaare Regional Training Centre (2013 - 2016)

Database and Software Management course in Kuressaare Regional Training Centre (2010 - 2013)

Kuressaare Basic School (2001 - 2010)

CAPABILITIES

Experience from 3D and video editing to web design and graphics design, troubleshooting difficult problems.

ACTIVITIES

Noor Meister 2015

In here I had to make a logo and branding for a Nukufilmi Lastestudio(Children's Puppet Film Studio).

Trükis 2014

In here I had to make a magazine cover for Massin, a engineering magazine.

Noor Meister 2014

In here I had to make a website and fully code it offline.

SKILLS

Knowledge of Adobe Photoshop, Adobe Illustrator, Adobe After Effects, Adobe InDesign, Adobe Flash, Audacity, Blender, HTML, CSS and a little bit of PHP, Javascript.
